Parents and Families,

It is our intent at Peace Lutheran Preschool to provide optimal learning opportunities in a safe, nurturing, and loving environment. Proverbs 22:6 says, "Train up a child in the way he should go..." We commend you for considering a Christian preschool where character building, Biblical values are incorporated into the curriculum. We consider it a privilege that you would entrust the teaching and care of your children to us.

We will strive to develop a world of understanding for living and learning and will integrate a variety of learning activities to target the "whole child." The children will be involved in age appropriate activities to develop skills in math, language, pre-reading, science, large and fine motor, art, social studies, dramatic and creative play, music, and social interaction. Their spiritual and emotional growth will be targeted each day as well, as we show them how special they are to God and help them develop the special abilities that God has given them. Their learning experiences will be relevant to their little lives.

Fostering positive self-image through the acceptance of each child as he or she is while encouraging self-expression in creative and positive ways enables each child to develop his or her own sense of identity. Your child will receive individualized attention and participate in group activities as well to encourage a sense of self as well as the importance of feeling a part of a larger group.

Each month you will receive a newsletter highlighting the exciting activities planned for the students. We utilize a thematic approach for learning concepts to capture each child's interest and instill in them the idea that learning is FUN!

God has made our world culturally diverse. We will reinforce that God loves every color, shape, and size of people as they are "fearfully and wonderfully made" by Him.

The early years are the best time to set the tone for future learning. If we can start each child off on a path of success in their learning "career" and show them that there is so much to discover in God's world, then we have laid a foundation upon which they can build future learning successes. Working towards their success is something we view as a partnership between each family and our school.

We have a wonderful staff with a culmination of experience and education that will benefit your children. Their love for working with children will become evident as you get to know them and see them interact with students.

Thank you for considering us in your search for a quality learning and child-care facility for you child. Your trust is most valuable to us. If you have any questions please don't hesitate to contact me at the above number.

God bless!

Patricia Wythe  
Director of Peace Lutheran Preschool
